**Cultivating Art** is a non-profit organization helping kids indulge into arts & keep them away from virtual games on smart phones and enhance child-parent relationship by art.

Today's common scene in most of Indian households with their children is addicted to smart phones & tabs. This repulsive habit leads to several physical, psychological disorders in kids as their skin & brain are 60% softer and more prone to radioactive waves.

**Cultivating Art** has been trying to divert these young kids of 3-16 years old towards natural arts like **drawing, painting, and colouring.**

Having 1,00,000+ students participated overall in all our annual events so far, kids have evolved to draw and colour on their own from fill-in colours competitions, a very proud moment to everyone.

This art event is aimed to indulge the vision of **Viksit Bharat** in school children to transform India into a fully developed, prosperous, and self-reliant country by 2047, marking 100 years of independence. At the same time indulge them into art by letting them **look, learn, draw, paint, create, make, and share** their creations with the world.
